Subject: RE: Agenda: 11/18 Maryland-EPA Quarterly Call

Lee...I thought it was a good call. In addition to the trading piece I had a few other follow ups in addition to your list:

- Status of CAFO GP
- MDE to share draft of new Mont Co permit with EPA for review by Christmas
- MD to share Septics "options doc" with EPA for review
- On Federal targets, I'd like to talk to you further because I don't think we should be limiting target setting only to fed facts that have permits

thanks again Jim

Lee,

One additional item to be added to the list below:

- MDA follow-up on EPA \$350K funding toward the Nutrient Trading Tool.

Thanks.

Pat

Subject: Agenda: 11/18 Maryland-EPA Quarterly Call

Jim,

I had the below items as requiring follow up

- How was PMT expressed in MDs WIP (Contingency vs Expectation) - MDA to follow up
- EPAs evaluation of jurisdiction pace (aggregate vs sector) - MD views this as aggregate
- Communicating 2014 progress - will go to WQGIT for discussion
- Beginning work on Phase III WIP expectations - Need to schedule a time to discuss with EPA prior to their retreat
- Federal facilities targets - MDE drafting guidance for consistency between permit and targets. This is a slight change from our early conversations.

If you have others, please let me know.

Thank you for your time today.

Lee
